Html    CSS    React    JavaScript    React.js    Next.js

Typescript    Git    Tailwind CSS    JQuery    Bootstrap

Astro Js

## PROJECTS

### NewLabel

📅 2025 - 10/2025    📍 Location

<https://newlabel-hub.vercel.app/>

- Developed an online learning platform where instructors can create and sell courses while students enroll, stream video lessons, and earn certificates. Implemented features such as secure user authentication, responsive UI, progress tracking, and course management to deliver a seamless e-learning experience.

### Quad Reaearch

📅 2024 - 02/2024    📍 Location

<https://quadtechsolutions.site/>

- Developed an academic writing and research collaboration platform that enables students, researchers, and professionals to create, edit, and share scholarly papers in real time. Integrated tools for citation management, plagiarism checking, and version control to enhance research integrity and collaboration. Designed with a clean, responsive interface to ensure smooth document editing and publishing across devices.

## EXPERIENCE

### Frontend Developer

#### Medixc

📅 2025 - Present    📍 Lagos, Nigeria

Medix.app: A healthcare management platform offering online doctor consultations, health record management, virtual meetings, personalized health plans, and medication reminders.

- 1. Developed a user-friendly and responsive web application for seamless patient experience.
- 2. Improved patient engagement through easy appointment booking and medical record access.
- 3. Enhanced data visualization for healthcare professionals to track patient progress.
- 4. Streamlined appointment scheduling, reducing no-shows and improving clinic efficiency.

### Frontend Web Developer

#### CrudPen Technologies Limited

📅 2023 - 06/2024    📍 Yenagoa, Bayelsa

CrudPen Technologies Limited is a technology company specializing in software development and web application solutions. The company provides innovative services and products to clients across various industries, focusing on creating user-friendly and efficient digital experiences.

- At CrudPen Technologies Limited, I developed a travel agency web app, Pneuma Travels, using HTML, Tailwind CSS, and Vanilla JavaScript.
- My collaboration with backend developers to integrate data demonstrates my teamwork and project management skills.

### Asst. Frontend Web Dev Lead, GDSC (Google Developer Student Club)

#### GDSC (Google Developer Student Club)

📅 2023 - 2024

📍 Federal University of Otuoke, Bayelsa

Google Developer Student Clubs (GDSC) are university-based communities that provide students with opportunities to enhance their technical skills and collaborate on projects. GDSC organizes workshops, seminars, and events to help students learn, network, and grow as developers."

- My involvement showcased my technical skills, teamwork, problem-solving abilities, and passion for technology.

## PROJECTS

---

### Personal Web Developer Portfolio

📅 2024 - 2024    📍 Location

<https://samtech-portfolio.vercel.app/>

- Built a web developer portfolio website to showcase my skills in frontend technologies like HTML, CSS, JavaScript, and React.js.
- Features modern design, interactive elements, and responsive performance across devices with detailed project descriptions.
- Showcased my front-end skills and projects, enhancing professional visibility and attracting potential job opportunities.
